Contents of Volume 37

Volume 37 Number 1

1 Effects of heat sinks on evolution of longitudinal temperature distributions in steel structures
R. BECKER (Israel)

21 A comparative study of drainage characteristics in AFFF and FFFP compressed-air fire-fighting foams
S. A. MAGRABI, B. Z. DLUGOGORSKI & G. J. JAMESON (Australia)

53 Inert hydrocarbon-based refrigerants
B. Z. DLUGOGORSKI, R. K. HICHENS & E. M. KENNEDY (Australia)

67 Simple model for control of fire gases in a ventilated tunnel
J. P. KUNSCH (Switzerland)

83 Post-flashover fires for structural design
R. FEASEY & A. BUCHANAN (New Zealand)

107 Estimating the thermal conductivity of chars and porous residues using thermal resistor networks
J. E. J. STAGGS (UK)

Book review

121 Enclosure fire dynamics: Björn Karlsson and James G. Quintiere (Reviewed by G. M. MAKHVILADZE)

I Calendar

Volume 37 Number 2

125 The effect of turbulence modelling on the CFD simulation of buoyant diffusion flames
F. LIU & J. X. WEN (UK)

151 A new synthesis method for signals for testing of flame-detection algorithms
T. FLIEß, H.-J. JENTSCHEL & K. LENKHEIT (Germany)

165 Socioeconomic deprivation and fatal unintentional domestic fire incidents in New Zealand 1993–1998
M. DUNCANSON, A. WOODWARD & P. REID (New Zealand)

181 An estimate of the correction applied to radiant flame measurements due to attenuation by atmospheric CO_2 and H_2O
S. P. FUSS & A. HAMINS (USA)

191 Smoke venting and fire safety in an industrial warehouse
Y. HE, J. WANG, Z. WU, L. HU, Y. XIONG & W. FAN (People's Republic of China)

217 Brazilian standards for steel structures fire design
V. P. SILVA & R. H. FAKURY (Brazil)

I Calendar

Volume 37 Number 3

229 A transient one-zone computer model for total flooding water mist fire suppression in ventilated enclosures
J. VAARI (Finland)

259 Large-eddy-simulation of buoyancy-driven fire propagation behind a pyrolysis zone along a vertical wall
H. Y. WANG, M. COUTIN & J. M. MOST (France)

287 A screening tool for Halon alternatives based on the flame ionisation detector
J. RICHES, L. KNUTSEN, E. MORREY & K. GRANT (UK)

303 Fires in workplace premises: risk data
P. G. HOLBORN, P. F. NOLAN, J. GOLT & N. TOWNSEND (UK)

Short communication

329 Measurement of temperature rise over time for commercially available night lights (tea lights)
N. N. DAÉID & E. THAIN (UK)

I Calendar

Volume 37 Number 4

Part Special Issue: Automatic Fire Detection (including papers presented at the 11th International Conference on Automatic Fire Detection)

337 Short Editorial
D. D. DRYSDALE (UK)

339 Prediction of fire resistance of concrete filled tubular steel columns using neural networks
A. M. AL-KHALEEFI, M. J. TERRO, A. P. ALEX (Kuwait) & Y. WANG (UK)

353 Study on discrimination between primary and secondary molten marks using carbonized residue
E.-P. LEE, H. OHTANI, Y. MATSUBARA, T. SEKI, H. HASEGAWA, S. IMADA & I. YASHIRO (Japan)

Special Issue Papers

369 Editorial: Special issue on fire detection
H. LUCK (Germany)

371 A new flame detector using the latest research on flames and fuzzy-wavelet algorithms
M. THUILLARD (Switzerland)

381 Advanced fire detection using multi-signature alarm algorithms
D. T. GOTTUK, M. J. PEATROSS, R. J. ROBY & C. L. BEYLER (USA)

395 Determination of dynamic model parameters of smoke detectors
J. BJÖRKMAN, D. BAROUDI, R. LATVA, M. TUOMISAARI & M. KOKKALA (Finland)

409 The use of light scattering and ion chamber responses for the detection of fires in diesel contaminated atmospheres
C. D. LITTON (USA)

427 Publishers Note

429 Photoacoustic gas detection for fire warning
P. W. NEIBIKER & R. E. PLEISCH (Switzerland)

I Calendar

Volume 37 Number 5

437 BFD curve: a new empirical model for fire compartment temperatures
C. R. BARNETT (New Zealand)

465 Wetting-induced ignition in cellulosic materials
B. F. GRAY, M. J. SEXTON, B. HALLIBURTON & C. MACASKILL (Australia)

481 The effect of $(NH_4)_2HPO_4$ and $(NH_4)_2SO_4$ on the spontaneous ignition properties of *Pinus halepensis* pine needles
S. LIODAKIS, D. BAKIRTZIS, E. LOIS & D. GAKIS (Greece)

495 Structural behavior of simple steel structures with non-uniform longitudinal temperature distributions under fire conditions
R. BECKER (Israel)

517 A thermodynamic analysis of fuel vapor characteristics in an aircraft fuel tank ullage
M. L. HUBER & J. C. YANG (USA)

525 Smoke extraction experiments in case of fire in a tunnel
O. VAUQUELIN & O. MÉGRET (France)

I Calendar

Volume 37 Number 6

535 Scaling the interaction of water sprays and flames
G. HESKESTAD (USA)

549 An analytical evaluation of flammability limits of gaseous mixtures of combustible–oxidizer–diluent
Yu. N. SHEBEKO (Russia), W. FAN (People's Republic of China), I. A. BOLODIAN & V. Yu. NAVZENYA (Russia)

569 A numerical study of water-mist suppression of large scale compartment fires
K. PRASAD, G. PATNAIK & K. KAILASANATH (USA)

591 Heat flux measurements in the OSU rate of heat release apparatus
R. FILIPCZAK & R. E. LYON (USA)

Short Communication

605 Experimental investigation of fire door behaviour during a natural fire
D. JOYEUX (France)

I Calendar

Volume 37 Number 7

615 Wall fire behavior in an under-ventilated room
G. BERTIN, J.-M. MOST & M. COUTIN (France)

631 A numerical study of the interaction of water spray with a fire plume
J. HUA, K. KUMAR, B. C. KHOO (Singapore) & H. XUE (USA)

659 Emission of polyaromatic hydrocarbons, polychlorinated biphenyls and polychlorinated dibenzo-*p*-dioxins and furans from fires of wood chips
A. BHARGAVA, B. Z. DLUGOGORSKI & E. M. KENNEDY (Australia)

673 A study of tactical patterns during fire fighting operations
S. SVENSSON (Sweden)

697 Using cone calorimeter data for the prediction of fire hazard
T. KUANG-CHUNG & D. DRYSDALE (UK)

707 A suggested cause of the fire-induced collapse of the World Trade Towers
J. G. QUINTIERE, M. DI MARZO (USA) & R. BECKER (Israel)

Book Review

717 Structural design for fire safety, by Andrew H. Buchanan; Wiley, New York
(Reviewed by J. MILKE)

719 Erratum

Volume 37 Number 8

721 Turbulence statistics in a fire room model by large eddy simulation
W. ZHANG, A. HAMER, M. KLASSEN, D. CARPENTER & R. ROBY (USA)

753 Thermal restraint and fire resistance of columns
I. C. NEVES, J. C. VALENTE & J. P. C. RODRIGUES (Portugal)

772 Response surface modelling of monte carlo fire data
A. M. HASOFER & J. QU (Australia)

785 Fire situation and fire characteristic analysis based on fire statistics of China
Y. LIZHONG, Z. XIAODONG, D. ZHIHUA, F. WEICHENG & W. QING'AN
(People's Republic of China)
